

TOP QUESTIONS PROVIDERS ASK US

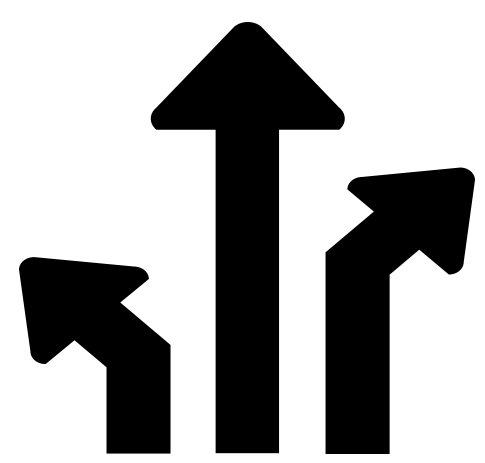

WHAT MAKES YOU DIFFERENT?

MediSked's solutions were created for the ID/DD and LTSS space. We're dedicated experts, committed to helping you drive efficiencies, generate innovations, and improve the lives of the individuals you support.

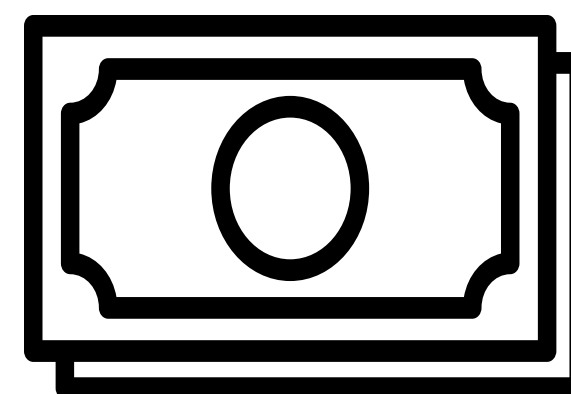

WHAT SECURITY PROTECTIONS ARE USED?

Our solutions are HIPAA and HITECH compliant, adhering to the highest standards of privacy and security.

CAN YOU INTERFACE WITH OTHER SOFTWARE?

Yes, our Interface & Analytics team has the ability to support integration and communication with multiple internal and external sources so you can spend less time entering data and have easier access to information.

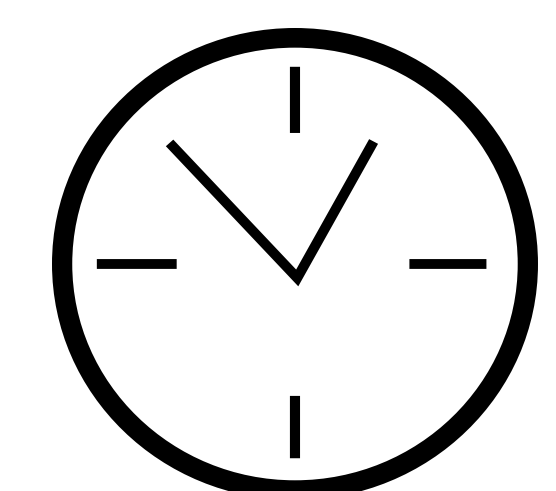

HOW DOES PRICING WORK?

MediSked Connect's price is comprised of 2 parts:

- One-time, upfront license activation to purchase and load the platform with your data
- Monthly subscription amount paid once you are up and running

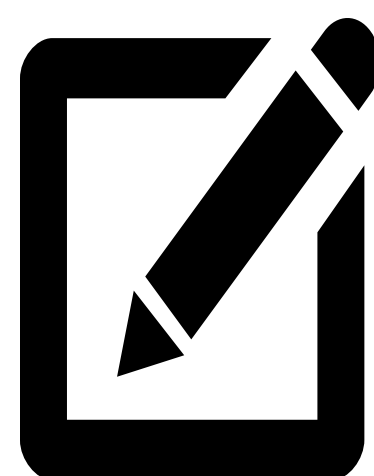

The amount is based on your size and desired server hosting package.

HOW LONG DOES IT TAKE TO SETUP?

Typically, it takes about 4 months. Our configurable process includes:

1. Getting to know your agency
2. Knowledge transfer
3. Compliance review
4. Testing

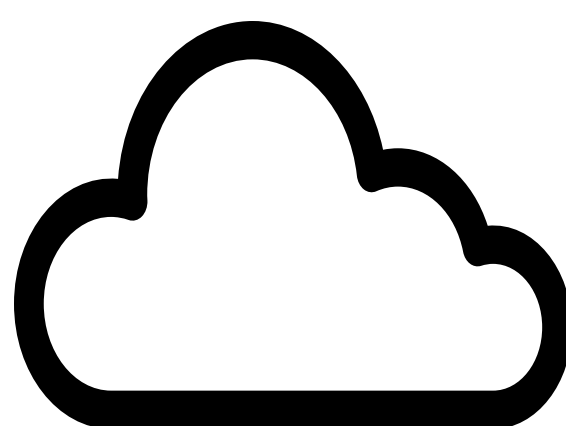

DOES IT USE ELECTRONIC SIGNATURES?

Yes, electronic signatures are recorded any time a change is made inside MediSked Connect, making it very easy to view the history of a note or plan. These signatures are HIPAA compliant and legally valid in all 50 states.

WHO ELSE USES YOUR SOFTWARE?

Providers across the country! More than 220,000 individuals are supported in over 39 states across the U.S.

CAN OUR STAFF ACCESS THE SYSTEM FROM ANYWHERE?

MediSked Connect is a cloud based solution that is accessed from an internet browser. Staff can access and enter information in real time from a smartphone, tablet, or laptop.
